## **Joint Stock Commercial Bank for Foreign Trade of Vietnam Report of the Board of Management**

The Board of Management of Joint Stock Commercial Bank for Foreign Trade of Vietnam (“the Bank”) presents this report and the separate interim financial statements of the Bank for the six-month period ended 30 June 2021.

### **The Board of Management’s responsibility in respect of the separate interim financial statements**

The Board of Management is responsible for the separate interim financial statements which give a true and fair view of the separate interim financial position of the Bank, and of its separate interim results of operations and its separate interim cash flows for the period. In preparing the separate interim financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed or not, subject to any material departures disclosed and explained in the separate interim financial statements; and
- Prepare the separate interim financial statements on the going concern basis unless it is inappropriate to presume that the Bank will continue its business.

The Board of Management is responsible for ensuring that proper accounting records are kept to disclose, with reasonable accuracy at any time, the financial position of the Bank and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Bank and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Management confirmed that it has complied with the above requirements in preparing the accompanying separate interim financial statements.

### **Statement of the Board of Management**

The Board of Management does hereby state that, in its opinion, the accompanying separate interim financial statements give a true and fair view of the separate interim financial position of the Bank as at 30 June 2021, and of its separate interim results of operations and its separate interim cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to credit institutions issued by the State Bank of Vietnam and the relevant statutory requirements applicable to interim financial reporting.

For and on behalf of the Board of Management:

Ms. Phung Nguyen Hai Yen  
*Deputy CEO*

Hanoi, 13 August 2021

## INTERIM FINANCIAL STATEMENTS REVIEW REPORT

**To:           The Shareholders**  
**Joint Stock Commercial Bank for Foreign Trade of Vietnam**

We have reviewed the accompanying separate interim financial statements of Joint Stock Commercial Bank for Foreign Trade of Vietnam ("the Bank"), which comprise the separate interim balance sheet as at 30 June 2020, the separate interim statements of income and cash flows for the six-month period then ended and the explanatory notes thereto which were authorised for issue by the Bank's Board of Management on 13 August 2021, as set out on pages 6 to 56.

### **The Board of Management's responsibility**

The Bank's Board of Management is responsible for the preparation and fair presentation of these separate interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to credit institutions issued by the State Bank of Vietnam and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Management determines is necessary to enable the preparation and presentation of separate interim financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express a conclusion on these separate interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - *Review of interim financial information performed by the independent auditor of the entity*.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

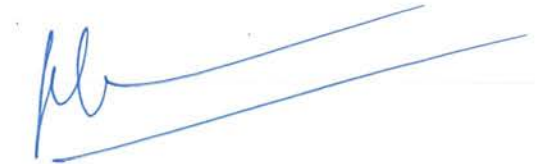

### Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying separate interim financial statements do not give a true and fair view, in all material respects, of the unconsolidated financial position of Joint Stock Commercial Bank for Foreign Trade of Vietnam as at 30 June 2021 and of its unconsolidated results of operations and its unconsolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to credit institutions issued by the State Bank of Vietnam and the relevant statutory requirements applicable to interim financial reporting.

The accompanying notes are an integral part of these separate interim financial statements

These notes form an integral part of, and should be read in conjunction with, the accompanying separate interim financial statements.

## **1. Reporting entity**

### **(a) Establishment and operations**

Joint Stock Commercial Bank for Foreign Trade of Vietnam ("the Bank") was established upon the transformation from a state-owned commercial bank following the approval of the Prime Minister on the equitisation plan of the Bank for Foreign Trade of Vietnam and in accordance with other relevant regulations. The Bank was granted Establishment and Operation Licence No. 138/GP-NHNN dated 23 May 2008 by the State Bank of Vietnam ("the SBV") for a period of 99 years, Business Registration Certificate No. 0103024468 dated 2 June 2008 by Hanoi Authority for Planning and Investment and Enterprise Code No. 0100112437 was reissued for the thirteenth time on 16 January 2019.

The principal activities of the Bank in accordance with Decision No. 2719/QD-NHNN dated 27 December 2011, Decision No. 2182/QD-NHNN dated 26 October 2015, Decision No. 891/QD-NHNN dated 8 May 2017, Decision No. 2293/QD-NHNN dated 31 October 2017, Decision No. 300/QD-NHNN dated 21 February 2019 and Decision No. 2447/QD-NHNN dated 25 November 2019 amending and supplementing to Establishment and Operation Licence No. 138/GP-NHNN on the contents of the Bank's operations are to mobilise and receive short, medium and long-term deposits from organisations and individuals; lend to organisations and individuals up to the nature and capability of the Bank's capital resources; conduct settlement and cash services; provide other banking services as approved by the SBV; invest in associates, joint-ventures and other companies; invest in stocks and bonds and real-estate business in accordance with the relevant regulations; trade in and supply interest rates derivatives and commodity price derivatives in accordance with the relevant regulations; purchase debts; trade in and provide foreign exchange services in the domestic and international markets in accordance with the relevant regulations of the SBV.

### **(b) Charter capital**

Under Establishment and Operation Licence No. 138/GP-NHNN dated 23 May 2008 issued by the SBV and Business Registration Certificate No. 0103024468 dated 2 June 2008 issued by Hanoi Authority for Planning and Investment, the Bank's charter capital was VND12,100,860,260,000. Under Enterprise Registration Certificate with Enterprise Code No. 0100112437 was reissued for the thirteenth time on 16 January 2019 and the amendment of Establishment and Operation Licence No. 138/GP-NHNN of Joint Stock Commercial Bank for Foreign Trade of Vietnam under Decision No. 300/QD-NHNN dated 21 February 2019 of the SBV, the Bank's charter capital was VND37,088,774,480,000. The par value of share is VND10,000.

	<b>At 30/6/2021 and 31/12/2020</b>	
	<b>Number of shares</b>	<b>%</b>
Shares owned by the Government of Vietnam	2,774,353,387	74.80%
Shares owned by foreign strategic shareholder (Mizuho Bank Ltd., Japan)	556,334,933	15.00%
Shares owned by other shareholders	378,189,128	10.20%
	<b>3,708,877,448</b>	<b>100%</b>

**(c) Location and network**

The Bank's Head Office is located at 198 Tran Quang Khai Street, Hoan Kiem District, Hanoi, Vietnam. **(e) Number of employees**

As at 30 June 2021, the Bank had 20,532 employees (31 December 2020: 19,518 employees).

## 2. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Bank in the preparation and presentation of these separate interim financial statements.

Except as described in Note 2(g)(ii), the accounting policies that have been adopted by the Bank in the preparation of these separate interim financial statements are consistent with those adopted in the preparation of the most recent separate annual financial statements.

### (a) Purpose of preparing the separate interim financial statements

The Bank has subsidiaries as disclosed in Note 1(d) and Note 8(a). The Bank has prepared these separate interim financial statements to meet the prevailing requirements in relation to disclosure of information, specified under Circular No. 96/2020/TT-BTC dated 16 November 2020 issued by the Ministry of Finance on disclosure of information on the securities market ("Circular 96"). In addition, as required by Circular 96, the Bank has also prepared the consolidated interim financial statements of the Bank and its subsidiaries for the six-month period ended 30 June 2021 ("the consolidated interim financial statements"), which were issued on 13 August 2021.

Users of the separate interim financial statements should read them together with the consolidated interim financial statements in order to obtain full information on the consolidated interim financial position, consolidated interim results of operations and consolidated interim cash flows of the Bank and its subsidiaries.

### (b) Basis of preparation

The separate interim financial statements, presented in Vietnam Dong ("VND") and rounded to the nearest million VND ("VND million"), have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to credit institutions ("CI") issued by the State Bank of Vietnam and the relevant statutory requirements applicable to interim financial reporting.

The separate interim financial statements, except for the separate interim statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate interim statement of cash flows is prepared using direct method.

### (c) Accounting period

The Bank's annual accounting period is from 1 January to 31 December. These separate interim financial statements are prepared for the six-month period ended 30 June 2021.

### (d) Foreign currency transactions

All transactions are recorded in their original currencies. Monetary assets and liabilities denominated in foreign currencies other than VND are converted into VND at the exchange rates prevailing at the reporting date. Non-monetary assets and liabilities denominated in foreign currencies are converted into VND at the exchange rate as at the dates of transactions. Income and expenses in foreign currencies are converted into VND in the separate interim statement of income at the spot exchange rates at the dates of transactions.

Foreign exchange differences arising during the period are recorded in the separate interim statement of income.

**(e) Cash and cash equivalents**

Cash and cash equivalents include cash on hand, balances with the SBV, treasury bills and other short-term valuable papers which are eligible for discounting with the SBV, balances with and loans to other credit institutions with original term to maturity not exceeding three months from the original date of placement or lending; investments securities with recoverability or maturity not exceeding three months that are readily convertible into known amounts of cash, and that are subjected to an insignificant risk of change in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

**(f) Balances with and loans to other credit institutions**

Balances with other credit institutions, except for current deposits, are term deposits with other credit institutions and foreign bank branches with original terms to maturity of not exceeding three months.

Loans to other credit institutions are loans with original terms to maturity of not exceeding twelve months.

Demand deposits with other credit institutions are stated at the amount of the outstanding principal.

Term deposits with and loans to other credit institutions are stated at the amount of the outstanding principal less any specific allowance for credit risks.

Debt classification of term deposits with and loans to other credit institutions and allowance for credit risk thereof is made in accordance with Circular No. 02/2013/TT-NHNN dated 21 January 2013 of the SBV on classification of assets, level and method of allowance making, and use of allowance against credit risks in banking activities of credit institutions and foreign banks' branches ("Circular 02") and Circular No. 09/2014/TT-NHNN dated 18 March 2014 of the SBV on amending and supplementing a number of articles of Circular 02 ("Circular 09"). Accordingly, the Bank has made specific allowance for term deposits with and loans to other credit institutions in accordance with the accounting policy described in Note 2(g)(ii).

According to Circular 02, the Bank is not required to make general allowance for balances with and loans to other credit institutions.

**(g) Loans to customers**

**(i) Loans to customers**

Loans to customers are stated in the separate interim balance sheet at the outstanding amount of principal at the reporting date.

Allowance for credit risk of loans to customers is recorded and stated in a separate line in the separate interim balance sheet. Allowance for credit risk comprises specific allowance for credit risk and general allowance for credit risk.

Debt classification for loans to customers is made in accordance with the method disclosed in Note 2(g)(ii) and allowance for credit risk of loans to customers is made in accordance with Circular 02 and Circular 09.

(ii) Specific allowance for credit risk

Since 1 January 2010, the Bank has applied Article 7, Decision No. 493/2005/QĐ-NHNN dated 22 April 2005 issued by the SBV to make debt classification based on the qualitative method as approved by the SBV. However, according to Circular 02, the Bank is required to classify debts and off-balance sheet commitments in accordance with both Article 10 and Clause 1 of Article 11, Circular 02. In that case, should classifications of a debt in accordance with Article 10 and Clause 1 of Article 11, Circular 02 differ, the debt is to be classified into the group of higher risk.

Since 1 January 2015, the Bank uses the information from Credit Information Center ("CIC") about the debt group of customers at the time of debt classification to adjust the debt group, off-balance sheet commitments. If a customer's debts and off-balance sheet commitments are classified in a debt group that has a lower risk than the debt groups provided in CIC's list, the Bank shall adjust its classification of debts and off-balance commitments following the debt groups provided by CIC.

Specific allowance is calculated based on the following allowance rates corresponding to debt principal less the discounted value of collateral assets:

	<u>Allowance rate</u>
Group 1 – Current debt	0%
Group 2 – Special mentioned debt	5%
Group 3 – Sub-standard debt	20%
Group 4 – Doubtful debt	50%
Group 5 – Loss debt	100%

Bad debts are debts within Groups 3, 4 and 5.

Since 13 January 2020, the Bank has applied Circular No. 01/2020/TT-NHNN ("Circular 01") issued by the SBV regulating credit institutions and foreign bank branches to reschedule the debt repayment term, exempting, reducing interests and fees, keeping debt group unchanged in order to support customers affected by Covid-19 pandemic. Accordingly, for customers with obligation of paying principals and/or interest during the period from 23 January 2020 to the day after 3 months from the day the Prime Minister declares the end of the Covid-19 pandemic and the borrowers are not able to repay the principal and/or interest in accordance with the payment schedules specified in the signed loan contract/agreement, original signed agreement due to decrease in revenue, profit caused by the effect of Covid-19 pandemic, the Bank is allowed to reschedule the repayment period for these debts while maintaining the same debt group as classified at the most recent date before 23 January 2020.

Since 17 May 2021, the Bank has applied Circular No. 03/2021/TT-NHNN dated 2 April 2021 ("Circular 03") issued by the SBV amending and supplementing certain articles of Circular 01. Accordingly, the customers whose loans were disbursed before 10 June 2020 and incurred obligations of paying principals and/or interest during the period from 23 January 2020 to 31 December 2021; and those customers are unable to pay the principal and/or interest in accordance to the payment schedules specified in signed loan contracts/agreements due to decrease in revenue, income caused by Covid-19 pandemic, the Bank is allowed to reschedule loan repayment periods, exempt or reduce interest and fees, and keep the debt group unchanged as classified in accordance with Circular 02 as follows:

Loan disbursement timing	Period of debt payment obligation occurrence	Overdue status	Period of overdue occurrence	Principle of keeping debt group unchanged
Before 23/01/2020	From 23/01/2020 to 31/12/2021	Not past due or overdue up to 10 days	From 30/03/2020 to before 31/12/2021	Keeping the debt group unchanged as classified at the most recent date <b>before 23/01/2020.</b>
		Overdue	From 23/01/2020 to 29/03/2020	
From 23/01/2020 to before 10/06/2020		Not past due or overdue up to 10 days	From 17/05/2021 to before 31/12/2021	Keeping the debt group unchanged as classified at the most recent date <b>before the first date of first rescheduling loan repayment period.</b>
		Overdue	From 23/01/2020 to before 17/05/2021	Keeping the debt group unchanged as classified at the most recent date <b>before the date the loan becomes overdue.</b>

For the loan balances with rescheduled repayment period, interest exempted or reduced and debt group being kept unchanged according to the restructured term and their repayment period is not further rescheduled by the Bank in accordance with prevailing regulations: The Bank classifies the debts and make allowance for credit risk in accordance with Circular 02, taking into account the number of times of rescheduling repayment period and keeping debt group unchanged.

At the same time, the Bank determines and recognises the additional specific allowance for the entire outstanding loan balance of customers, including the loan balances with rescheduled repayment period, interest exempted or reduced according to the results of debt classification in accordance with Circular 02 (without applying the provision of keeping debt group unchanged under Circular 03) as follows:

Additional allowance	Deadline
At least 30% of the required additional specific allowance	By 31 December 2021
At least 60% of the required additional specific allowance	By 31 December 2022
100% of the required additional specific allowance	By 31 December 2023

(iii) General allowance for credit risk

The Bank is required to make a general allowance of 0.75% of total outstanding balances of debts which are classified into Groups 1 to 4 as at the last working day of each quarter. For the fourth quarter of the year, a general allowance is made at 0.75% of total outstanding balances of debts which are classified into Groups 1 to 4 as at the last working day of November.

(iv) Bad debts written-off

According to Circular 02, the Bank writes off bad debts in the following cases:

- Borrowers who are dissolved, bankrupted under legal regulations (in case of legal entities); or are deceased or missing (in case of individuals);
- Debts are classified into Group 5.

**(h) Investments**

**(i) Trading securities**

Trading securities are debt securities, equity securities and other securities which are bought and held for the purpose of reselling within one year to earn capital gains.

Trading securities are initially recognised at cost. They are subsequently measured at the lower of book value and market price. Gains or losses from the sales of trading securities are recognised in the separate interim statement of income.

**(ii) Investment securities**

Investment securities are classified into two categories: available-for-sale and held-to-maturity investment securities. The Bank classifies investment securities on their purchase dates. In accordance with Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 by the SBV, the Bank is allowed to reclassify investment securities once, at maximum, after the acquisition date.

*Available-for-sale investment securities*

Available-for-sale investment securities are debt securities, equity securities or other securities, which are acquired for an indefinite period and may be sold at any time. For equity securities, the investee is not a subsidiary, associate or joint-venture of the Bank and the Bank is neither a founding shareholder nor a strategic partner; nor has the impact on the enterprise's planning and determining of financial and operating policies under agreements to appoint personnel to the Members' Council/Board of Directors/Board of Management.

Post-acquisition interest income from available-for-sale debt securities is recognised in the separate statement of income on an accrual basis.

*Held-to-maturity investment securities*

Held-to-maturity investment securities are debt securities, with fixed or determinable payments and maturities where the Bank's management has the positive intention and ability to hold until maturity.

Post-acquisition interest income from held-to-maturity investment securities is recognised in the separate interim statement of income on an accrual basis.

Investment securities are initially recognised at cost, including transaction costs and other directly attributable costs. They are subsequently measured at the book value after amortisation less allowance for investment securities. Premiums and discounts arising from purchases of debt securities are amortised in the separate interim statement of income using the straight-line method over the period from the acquisition dates to the maturity dates.

In addition, according to Circular 02 and Circular 09, investment securities which are unlisted corporate bonds (including bonds issued by other local credit institutions on the secondary market) are subject to debt classification and allowance for credit risk in a manner similar to loans to customers described in Note 2(g). For other available-for-sale investment securities, allowance for diminution in the value of securities is made if their market price decreases to below their cost. For other held-to-maturity investment securities, allowance for diminution in the value of securities is made when there is indication of prolonged decline in securities prices or there is certain evidence that it is difficult for the Bank to fully recover the investment.

(iii) *Capital contributions, long-term investments*

*Investments in subsidiaries, joint-ventures and associates*

*Subsidiaries* are entities that fall in one of the followings:

- The Bank or the Bank and its related parties hold more than 50% of charter capital or more than 50% of the voting rights in that entity;
- The Bank has the power, directly or indirectly, to appoint most of or all of the members of the Board of Directors, the Members' Council or General Director of the entity;
- The Bank has the power to amend, supplement to the entity's charter;
- The Bank and its related parties control, directly or indirectly, the resolution and decision of the annual general shareholders' meeting, the Board of Directors, the Members' Council of the entity.

*Joint-ventures* are those entities to which the Bank has joint control, established by contractual agreements and require unanimous consent of all joint-venture investors for the entity's strategic financial and operating decisions.

*Associates* are those entities to which the Bank has significant influence, but not control, over their financial and operating policies.

Investments in subsidiaries, joint-ventures and associates are stated at cost less allowance for diminution in value.

*Other long-term investments*

Other long-term investments represent the Bank's equity investments in other enterprises where the Bank owns less than 11% of voting rights and is either a founding shareholder or a strategic partner; or has influences on the enterprise's planning and determining of financial and operating policies under agreements to appoint personnel to the Members' Council/Board of Directors/Board of Management but the Bank does not have control or significant influence over the investees.

Other long-term investments include equity securities and other long-term capital contributions which are intended to hold for more than one year (except for capital contributions and investments into joint-ventures, associates and subsidiaries).

Other long-term investments are initially recognised at cost less allowance for diminution in the value of investments.

For investments in unlisted equity securities, the allowance for diminution in the value of long-term investments is made for the local economic entity owned by the Bank at the end of the accounting period which has signs of decrease in value compared to the Bank's carrying value in accordance with Circular No. 48/2019/TT-BTC dated 8 August 2019 issued by the Ministry of Finance ("Circular 48"). Accordingly, the allowance amount for the investment is the difference between the owners' actual contributed capital at the economic entity receiving capital contribution and actual equity of the economic entity at the time of calculating allowance multiplied (x) by the actual percentage of capital contributed into the economic entity by the Bank at the time of calculating allowance. For investments in listed securities or investments whose market price can be determined reliably, allowance is made based on the securities' market price when their carrying amounts are higher than their market prices.

**(i) Repurchase and reverse repurchase agreements**

Securities sold under agreements to repurchase at a specific date in the future (repos) are still recognised in the separate interim financial statements. The corresponding cash received from these agreements is recognised in the separate interim balance sheet as a liability. The difference between the sale price and repurchase price is amortised in the separate interim statement of income over the term of the agreement using the straight-line method.

Securities purchased under agreements to resell at a specific date in the future are not recognised in the separate interim financial statements. The corresponding cash paid under these agreements is recognised in the separate interim balance sheet as a loan to customer. The difference between the purchase price and resale price is amortised in the separate interim statement of income over the term of the agreement using the straight-line method.

**(j) Tangible fixed assets**

**(i) Cost**

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use on the site where it is located.

In accordance with Circular No. 45/2013/TT-BTC dated 25 April 2013 issued by the Ministry of Finance ("Circular 45") guiding the framework of management, use and depreciation of fixed assets, assets shall be considered as fixed assets if they meet all of the following three criteria:

- It is certain to gain future economic benefits from the use of such assets;
- The useful life of assets is above one year;
- Historical costs of the assets must be determinable reliably, with a minimum value of VND30,000,000.

Expenditures incurred after the tangible fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to the separate interim statement of income for the period in which the costs are incurred. In case it can be clearly demonstrated that these expenditures have resulted in an increase in the expected future economic benefits obtained from the use of these tangible fixed assets beyond their originally assessed standard level of performance, the expenditures will be capitalised as an additional cost of tangible fixed assets.

**(ii) Depreciation**

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

- |                                            |             |
|--------------------------------------------|-------------|
| • Buildings and structures                 | 25 years    |
| • Machinery and equipment                  | 3 – 5 years |
| • Motor vehicles and means of transmission | 6 years     |
| • Other tangible fixed assets              | 4 years     |

**(k) Intangible fixed assets**

**(i) Land use rights**

According to Circular 45, intangible fixed assets recognised as land use rights comprise:

- The land use rights granted by the State with land use fee or receiving the transfer of legal land use rights (including definite and indefinite land use rights);
- The rights to use the leased land before the effective date of the Land Law 2003 but the rent has been paid for the leasing time or paid in advance for many years and the remaining paid land lease term is at least five years and granted with certificate of land use rights by the competent authority.

The initial cost of land use rights is determined as the total amount paid to have the land use rights plus costs of site clearance, ground levelling, registration fee (excluding costs of construction on that land) or the value of land use rights with contributed capital.

Land use rights not recognised as intangible assets comprise:

- Land use rights granted by the State without land use fee;
- Land lease rent paid one time for the entire lease term (the land lease time after the effective date of the Land Law 2003 without certificate of land use rights granted), the rent is amortised into the business expenses by the number of lease periods;
- Land lease rent paid annually, the rent is recorded into the business expenses in the period in proportion to the rent annually paid.

According to Circular 45, intangible fixed assets which are long-term land use rights with land use fee or receiving the legal long-term land use rights are not amortised.

For the intangible fixed assets which are the value of land use rights with term or the leased land use rights, the period of depreciation is the period permitted for land use of the Bank.

**(ii) Copyrights, patents and other intangible fixed assets**

Copyrights, patents and other intangible fixed assets are stated at cost less accumulated amortisation. These intangible fixed assets are amortised on a straight-line basis over 4 years.

**(l) Other assets**

Except for receivables from uncollectible income as presented in Note 2(s)(iv), allowance for overdue other assets which are not classified as assets bearing credit risk are made in accordance with Circular 48 and Circular No. 200/2014/TT-BTC issued by the Ministry of Finance on 22 December 2014 ("Circular 200"). Accordingly, allowance for these assets is based on their overdue period or estimated irrevocable loss for debts that are not due but the Bank has collected evidence to identify that debtor has become bankrupt, filing for bankruptcy or has absconded; or being prosecuted, detained or tried by law enforcement bodies or serving a sentence; or suffering from a serious illness (certified by the hospital); deceased; or those remains irrecoverable after the Bank filing a lawsuit due to its debtor had fled from his/her residence; the debt which has been sued for debt collection by the Bank but the case has been suspended.

<i>Overdue period</i>	<i>Allowance rate</i>
From six (6) months to less than one (1) year	30%
From one (1) year to less than two (2) years	50%
From two (2) years to less than three (3) years	70%
From three (3) years and above	100%

For other assets that are classified as assets with credit risk, the Bank classifies and makes allowance similarly to loans to customers described in Note 2(g).

**(m) Deposits and borrowings from other credit institutions**

Deposits and borrowings from other credit institutions are stated at cost.

**(n) Deposits from customers**

Deposits from customers are stated at cost.

**(o) Valuable papers issued**

Valuable papers issued are stated at cost and accumulated amortised premiums or discounts. Cost of valuable papers issued includes the proceeds from the issuance less directly attributable costs.

**(p) Severance allowance**

Under the Vietnamese Labour Code, when an employee who has worked for the Bank for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, the Bank is required to pay the eligible employee severance allowance calculated based on years of service until 31 December 2008 and employee's average monthly salary of the latest six-month period until termination. Before 2012, provision for severance allowance had been provided based on employees' years of service and their current salary level.

On 24 October 2012, the Ministry of Finance issued Circular No. 180/2012/TT-BTC ("Circular 180") guiding the financial treatment for redundancy allowance to employees of enterprises. Circular 180 provides that, in preparation of financial statements for the year 2012, if an enterprise's provision for severance allowance still has the outstanding balance, the enterprise must reverse the balance to other income for the year 2012 and must not carry forward the balance to the following year. Accordingly, the Bank reversed the outstanding balance of provision for severance allowance. This change in accounting policy has been applied prospectively from 2012.

**(q) Bonus and welfare fund**

Bonus and welfare fund is appropriated from profit after tax in accordance with the Resolution of the General Meeting of Shareholders and recorded as liabilities in the separate interim balance sheet. The bonus and welfare fund is used for the purposes specified in Decree No. 93/2017/ND-CP dated 7 August 2017 issued by the Government ("Decree 93").

**(r) Capital and reserves**

**(i) Ordinary shares**

Ordinary shares are classified as equity and recognised at par value. Incremental costs directly attributable to the issuance of ordinary shares are recognised as a deduction from share premium in equity.

**(ii) Share premium**

On receipt of capital from shareholders, the difference between the issuance price and the par value of the shares is recorded in share premium under equity.

**(iii) Treasury shares**

When the Bank repurchases its ordinary shares, the total paid amount including directly attributable costs, net of any tax effects, is recognised as a deduction from equity. Repurchased shares are recognised as treasury shares and presented as a deduction from equity.

**(iv) Reserves**

Reserves are used for specific purposes and appropriated from net profit after tax of the Bank at prescribed rates as below:

- Supplementary charter capital reserve: 5% of net profit after tax. According to Decree 93, the maximum balance for this reserve does not exceed the Bank's charter capital.
- Financial reserve: 10% of net profit after tax. The maximum balance for this reserve is not specified under Decree 93.
- Investment and development fund and other funds: appropriated following the resolutions of the General Meeting of Shareholders and in accordance with prevailing regulations.

The remaining net profit after tax, after appropriation to reserves and dividends payment, is recorded as retained profits of the Bank.

**(s) Income and expenses**

**(i) Interest income and interest expenses**

The Bank recognises interest income from debts classified in Group 1 – Current debt as defined in Note 2(g) on an accrual basis. Interest receivable from debts being kept debt group as Group 1 – Current debt as a result of applying Circular 01 and Circular 03 or adopting the State's regulations and interest receivable from debts classified in Group 2 to Group 5 are recognised in the separate interim statement of income upon receipt (cash basis).

Interest expenses are recognised on an accrual basis.

**(ii) Fee and commission and dividend income in cash**

Fee and commission are recognised on an accrual basis.

Cash dividends from investment activities are recognised in the separate interim statement of income when the Bank's right to receive dividend is established.

**(iii) Share dividends**

In accordance with Circular 200, share dividends distributed from retained profits, share premium and reserves in equity of joint stock companies are not recorded as an income in the separate interim statement of income. Instead, the additional shares received are reflected as increase in the number of shares held by the Bank.

**(iv) Uncollectible income**

According to Circular No. 16/2018/TT-BTC dated 7 February 2018 issued by the Ministry of Finance, receivables that are recognised as income but uncollectible at the due date are reversed as a reduction of income if the due date is within the same accounting period, or recorded as an expense if the due date is not within the accounting period, and must be monitored on the off-balance sheet for following-up on collection. When the receivable is collected, the Bank will record it in other income.

**(t) Operating leases**

Payments made under operating leases are recognised in the separate interim statement of income on a straight-line basis over the term of the lease.

**(u) Taxation**

Corporate income tax comprises of current and deferred tax. Corporate income tax is recognised in the separate interim statement of income except that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current income tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payables in respect of the previous periods.

Deferred income tax is calculated by using the balance sheet method, providing for the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred income tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

**(v) Related parties**

Related parties of the Bank include:

- Parent company or the credit institution considered as the parent company of the Bank;
- The Bank's subsidiaries;
- The party that has the same parent company or parent credit institution with the Bank;
- Management personnel or members of the Supervisory Board of the parent company or parent credit institution of the Bank;
- Individuals or organisations which have the authority to appoint management personnel or members of the Supervisory Board of the parent company or parent credit institution of the Bank;
- Management personnel or members of the Supervisory Board of the Bank;
- Entities or organisations which have the authority to appoint management personnel, members of the Supervisory Board of the Bank;
- Wives, husbands, parents, children (including foster parents, foster children, parents-in-law, son-in-law, daughter-in-law, step parents, step children), siblings (including half siblings), brothers-in-law, sisters-in-law of management personnel of the Supervisory Board, capital contributors or shareholders who hold at least 5% of charter capital or share capital with voting rights of the Bank;
- Individuals or organisations that hold at least 5% of charter capital or share capital with voting rights of the Bank; and
- Authorised representatives of owners of contributed capital, shares of the Bank.

The Government of Vietnam, through the State Bank of Vietnam, is a shareholder of the Bank. Therefore, in these separate interim financial statements, some Government agencies, including the Ministry of Finance and the State Bank of Vietnam are considered as related parties of the Bank.

**(w) Segment reporting**

A segment is a distinguishable component of the Bank engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

**(x) Off-balance sheet items**

**(i) Foreign exchange contracts**

The Bank enters into foreign exchange forward and swap contracts which enable customers to transfer, modify or reduce their foreign exchange risk or other market risks and also are used for the Bank's business purpose.

Forward contracts are commitments to either purchase or sell a designated currency at a specific future date for a specific exchange rate and cash settlement. Forward contracts are recorded at nominal values at transaction dates and are subsequently revaluated at the reporting date. Differences on revaluation are recognised under "Foreign exchange differences" in the equity and are recorded in the separate interim statement of income at the end of the accounting period. Differences between the amount in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognised in the separate interim statement of income on a straight-line basis over the term of the forward contracts.

Currency swap contracts are commitments to settle in cash at a future date based on differences between specified exchange rates, calculated on the notional principal amount. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognised immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the separate interim balance sheet. This difference is amortised to the separate interim statement of income on a straight-line basis over the term of the swap contracts.

(ii) Interest swap contracts

Interest swap contracts are commitments to settle in cash the notional principal amounts at the interest amount based on floating or fixed interest rates. The value of commitment in interest rate swap contracts is not recognised on the separate interim balance sheet. The difference of swap interest rates is recognised in the separate interim statement of income on an accrual basis.

(iii) Commitments and contingent liabilities

The Bank has credit commitments arising from its regular lending activities. These commitments are unutilised loans and overdraft facilities which are approved. The Bank also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. Many of the contingent liabilities and commitments will expire without any advanced payment, in whole or in part. Therefore, these commitments and contingent liabilities do not represent expected future cash flows.

According to Circular 02 and Circular 09, the Bank, for management purpose has to classify guarantees, payment acceptances and irrevocable lending commitments with specific effective date into 5 groups, similar to loans to customers (Note 2(g)).

(y) **Offsetting**

Financial assets and liabilities are offset and the net amounts are reported in the separate interim balance sheet if, and only if, the Bank has currently enforceable legal rights to offset the recognised amounts and the Bank has an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### **3. Presentation of financial instruments in accordance with Circular No. 210/2009/TT-BTC**

During its business operations, the Bank regularly enters into contracts which give rise to financial assets, financial liabilities and equity instruments.

Financial assets of the Bank mainly include:

- Cash;
- Balances with the State Bank of Vietnam;
- Balances with and loans to other credit institutions;
- Loans to customers;
- Trading securities;
- Investment securities;
- Capital contributions, long-term investments;
- Derivative financial assets; and
- Other financial assets.

Financial liabilities of the Bank mainly include:

- Amounts due to the Government and the State Bank of Vietnam;
- Deposits and borrowings from other credit institutions;
- Deposits from customers;
- Funds for finance, entrusted investments and entrusted loans;
- Valuable papers issued;
- Derivative financial liabilities; and
- Other financial liabilities.

#### **(a) Classification of financial assets and liabilities**

Only for the disclosure purpose in the separate interim financial statements, the Bank classifies financial assets and financial liabilities in accordance with Circular No. 210/2009/TT-BTC dated 6 November 2009 issued by the Ministry of Finance ("Circular 210").

Financial assets are classified as:

- Financial assets held for trading;
- Held-to-maturity investments;
- Loans and receivables; and
- Available-for-sale financial assets.

Financial liabilities are classified as:

- Financial liabilities held for trading; and
- Financial liabilities carried at amortised cost.

**(b) Measurement and disclosures of fair value**

In accordance with Circular 210, the Bank has to disclose the fair value of financial assets and financial liabilities to compare with the book value of those financial assets and financial liabilities as disclosed in Note 24(b).

The disclosure of fair value of the financial instruments is only for the disclosure purpose in Note 24(b). The financial instruments of the Bank are still recognised and recorded in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to credit institutions issued by the SBV and the relevant statutory requirements applicable to interim financial reporting as described in the notes above.

Fair value is the amount for which an asset could be exchanged, or a liability settled, among knowledgeable, willing parties in an arm's length transaction on the measurement date.

When an active market exists for a financial instrument, the Bank measures the fair value of that instrument using its quoted price in the active market. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions.

In case there is not enough information to utilise valuation techniques, fair value of the financial instruments without quoted market prices in the active market are deemed not to have been reliably measured and therefore, not disclosed.

**4. Trading securities**

	30/6/2021 VND million	31/12/2020 VND million
<b>Debt securities</b>		
Government bonds	1,595,906	62,623

## 5. Loans to customers

	30/6/2021 VND million	31/12/2020 VND million
Government bonds	54,482,274	59,001,448
Debt securities issued by other local credit institutions	38,311,519	51,041,344
Debt securities issued by local economic entities	6,436,752	5,339,752
	99,230,545	115,382,544
Allowance for held-to-maturity securities	(319,613)	(406,523)
<b>Total held-to-maturity securities</b>	<b>98,910,932</b>	<b>114,976,021</b>

## 8. Capital contributions, long-term investments

### (a) Investments in subsidiaries

As at 30 June 2021

	Business sector	Ownership percentage (%)	Cost VND million
Vietcombank Financial Leasing Vietcombank	Finance lease	100%	500,000
Vietcombank Securities Company Limited	Securities	100%	700,000
Vietnam Finance Company Limited in Hong Kong	Financial services	100%	235,222
Vietcombank Remittance Company Limited	Receipt of foreign exchange	100%	30,000
Vietcombank Laos Limited	Banking	100%	1,820,400
Vietcombank Money Inc.	Foreign exchange remittance	87.5%	204,978
Vietcombank Tower 198 Ltd.	Office leasing	70%	70,000
			<b>3,560,600</b>

As at 31 December 2020

	Business sector	Ownership percentage (%)	Cost VND million
Vietcombank Financial Leasing Vietcombank	Finance lease	100%	500,000
Vietcombank Securities Company Limited	Securities	100%	700,000
Vietnam Finance Company Limited in Hong Kong	Financial services	100%	116,902
Vietcombank Remittance Company Limited	Receipt of foreign exchange	100%	30,000
Vietcombank Laos Limited	Banking	100%	1,820,400
Vietcombank Money Inc.	Foreign exchange remittance	87.5%	204,978
Vietcombank Tower 198 Ltd.	Office leasing	70%	70,000
			<b>3,442,280</b>

**(b) Investments in joint-ventures**

	Business sector	30/6/2021 and 31/12/2020	
		Ownership percentage (%)	Cost VND million
Vietcombank – Bonday – Ben Thanh Joint-venture Company Limited (i)	Office leasing	52%	410,365
Vietcombank Fund Management (i)	Investment fund management	51%	135,150
			<hr/> 545,515 <hr/>

- (i) The Bank owns 52% of the total contributed capital of Vietcombank – Bonday – Ben Thanh Joint-venture Company Limited and 51% of the total contributed capital of Vietcombank Fund Management. These companies' charters require a consensus among related parties on all important decisions on the companies' operational and financial matters. Hence, owning more than half of the companies' contributed capital does not mean that the Bank has control over these companies. The investments in these two companies are classified into "Investments in joint-ventures" rather than "Investments in subsidiaries".

**(c) Investments in associates**

	Business sector	30/6/2021 and 31/12/2020	
		Ownership percentage (%)	Cost VND million
Vietcombank – Bonday Joint-venture Company Limited	Office leasing	16%	11,110

The Bank has significant influence through its participation in the Members' Council, but limited control over the financial and operating policies of this company. Therefore, the investment in the above company is classified into "Investments in associates" rather than "Other long-term investments".

**9. Amounts due to the Government and the State Bank of Vietnam**

	30/6/2021 VND million	31/12/2020 VND million
<b>Borrowings from the State Bank of Vietnam</b>	<b>1,658,940</b>	<b>2,347,294</b>

(\*) As at 30 June 2021, the Head Office, located in the North, incurred some operating expenses for the whole system which were not allocated to other components within the Bank.

The main business activity of the Bank is provision of finance/banking services.

## 24. Disclosures of financial instruments

### (a) Collateral disclosure

The Bank does not hold collaterals which are allowed to be sold or re-pledged in the absence of default by the owner of the collaterals.

### (b) Fair value disclosure

Circular 210 requires disclosures on fair value measurement method and related information of financial assets and financial liabilities for the purpose of comparing the carrying values and fair values.

The following table presents carrying value and fair value of the Bank's financial assets and liabilities as at 30 June 2021:

## 24. Disclosures of financial instruments (continued)

### (c) Risk management policies for financial instruments

The Board of Directors has the highest authority and responsibilities for the Bank's financial risk management to facilitate its sustainable growth.

Having taken those responsibilities, the Board of Directors appropriately promulgates risk management policies and strategies for each period, establishes risk limits, directly approves high-value business transactions in accordance with legal and internal requirements for each period, and determines organisational structure and key personnel positions.

Risk management strategies and policies of the Board of Directors are adhered to the Bank's charter and General Shareholders' Meeting resolution for each period.

The Risk Management Committee was established by the Board of Directors to assist the Board of Directors in managing all risks that may arise from the Bank's day-to-day business operations.

The Asset and Liability Credit and Operational Risk Committee ("ALCO") was established and chaired by the Chief Executive Officer. ALCO members are key personnel of the Bank being in-charge of risk management.

ALCO is responsible for comprehensively monitoring and managing assets and liabilities in the consolidated and separate balance sheet of the Bank in order to maximise profit while minimising losses arising from negative market trends, manage liquidity risk and appropriately direct interest and foreign exchange rate schemes.

Within its authority, ALCO has the authority to make risk management decisions.

#### (i) Credit risk

The Bank is exposed to credit risk, which is the risk of incurring a loss because its customers or counterparties fail to discharge their contractual obligations. Credit exposures arise mainly in lending activities relating to loans to customers, and in investments in debt securities. Off-balance sheet financial instruments, such as loan commitments, also contain credit risk. The Bank controls and manages credit risk by setting up related policies and procedures, including the credit risk management policies and operational risk management policy by the Risk Management Committee and Credit Committee.

The Bank classifies loans to customers and other credit institutions, off-balance sheet commitments, entrusted loans and unlisted corporate bonds in accordance with Circular 02 and Circular 09 (Note 2(g)), and regularly assesses credit risks of non-performing loans in order to have appropriate resolutions.

In order to manage credit risks, the Bank has established policies and procedures relating to credit risk management; established credit manuals; performed credit risk assessment; set up internal credit rating systems and loan classification and decentralised authorisation in credit activities.

## 24. Disclosures of financial instruments (continued)

### (c) Risk management policies for financial instruments (continued)

#### (i) Credit risk (continued)

The Bank's maximum exposure amounts to credit risk as at 30 June 2021, excluding collaterals and credit risk mitigations as follows:

	Neither past due nor impaired VND million	Past due but not impaired VND million	Impaired and allowance made VND million	Total VND million
Balances with the SBV	23,226,345	-	-	23,226,345

Other collaterals	260,925,309	266,491,999
	<b>1,483,900,545</b>	<b>1,439,898,568</b>

## 24. Disclosures of financial instruments (continued)

### (c) Risk management policies for financial instruments (continued)

#### (ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will unexpectedly fluctuate due to changes in market interest rates.

The actual interest re-pricing term is the remaining term starting from the end of accounting period to the nearest interest re-pricing date of the items in the separate interim balance sheet.

The following assumptions and conditions have been adopted in the analysis of actual interest re-pricing term of asset and liabilities items in the separate interim balance sheet of the Bank:

- Cash, gold, silver and gemstones, capital contributions, long-term investments, and other assets (including fixed assets and other assets) are classified as free of interest items;
- Trading securities being debt securities are classified as “Up to 1 month” items;
- The actual interest re-pricing terms of investment securities are subject to issuers’ terms and conditions on interest rate of issuing institution for each security type;
- The actual interest re-pricing term of balances with and loans to other credit institutions, loans to customers, amounts due to the Government and the SBV, deposits and borrowings from other credit institutions, deposits from customers, funds for finance, entrusted investments and entrusted loans and other liabilities are identified as follows:
  - Items with fixed interest rate during the contractual term: the actual interest re-pricing term is based on the contractual maturity date subsequent to the end of the accounting period;
  - Items with floating interest rate: the actual interest re-pricing term is based on the nearest re-pricing term subsequent to the end of the accounting period.
- The actual interest re-pricing term of valuable papers issued is based on valuable papers’ maturities and the Bank’s interest rate for each issuance.

The following table presents the interest rate re-pricing terms of the Bank’s assets and liabilities as at 30 June 2021:

## 24. Disclosures of financial instruments (continued)

### (c) Risk management policies for financial instruments (continued)

#### (iii) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Bank was incorporated and operates in Vietnam, with VND as its reporting currency. The major currency in which the Bank transacts is VND. The Bank's loans to customers are mainly denominated in VND, USD and EUR. Some of the Bank's other assets and other liabilities are in currencies other than VND, USD and EUR. The Bank has set limits on currency positions based on its internal risk management system and relevant statutory requirements stipulated by the SBV. Currency positions are monitored on a daily basis and hedging strategies used to ensure positions are maintained within established limits.

The followings are the major exchange rates applied by the Bank at the end of the accounting period:

	Exchange rate as at	
	30/6/2021	31/12/2020
USD/VND	23,020	23,125
EUR/VND	27,394	28,499

The following table presents the Bank's assets and liabilities denominated in foreign currencies that were translated into VND as at 30 June 2021:

## 24. Disclosures of financial instruments (continued)

### (c) Risk management policies for financial instruments (continued)

#### (iv) Liquidity risk

Liquidity risk occurs when the Bank fails to fulfil its financial commitments with customers or counterparties due to unavailability of funds or liquidity.

The maturity of assets and liabilities represents the remaining terms of these assets and liabilities from the end of the accounting period to the maturity date according to the underlying contractual agreements or term of issuance.

The following assumptions and conditions have been adopted in the preparation of the Bank's assets and liabilities maturity analysis in the separate interim balance sheet:

- Balances with the State Bank of Vietnam are considered as current accounts with maturity of less than one month, including the compulsory deposits;
- The maturity of trading securities is considered to have maturity of less than one month because they are held in the short term for profit taking on price differences;
- The maturity of investment securities is based on maturity dates of each securities established by the issuers of these financial instruments;
- The maturities of balances with and loans to other credit institutions and loans to customers are based on the contractual maturity date. The actual maturity may vary from the original contractual term when the loan/deposit contract is extended;
- The maturity of capital contributions, equity investments is considered to be over five years as equity investments have no specified maturity; and
- Deposits and borrowings from other credit institutions, deposits from customers, funds for finance, entrusted investments and entrusted loans and valuable papers issued are determined based on either the nature of the loans, deposits and valuable papers issued or their contractual maturities. For example, demand deposits of other credit institutions at the Bank and current accounts of the Bank at other credit institutions paid upon customers' demand are considered to be demand deposits, the maturity of term deposits and borrowings is based on the contractual maturity date. In practice, such items may be rolled over and maintained for longer period.

The following table analyses the remaining terms to maturity of Vietcombank's assets and liabilities as at 30 June 2021:

## 25. Post balance sheet events

Until the issuance date of the separate interim financial statements, there were no significant events occurring subsequent to 30 June 2021 that may significantly affect the separate interim financial position of the Bank and require adjustments or disclosures to be made in the separate interim financial statements for the six-month period ended 30 June 2021.

## 26. Seasonal or cyclical factors

The Bank's operation results are not affected by seasonal or cyclical factors except for the following items:

### *Appropriation of reserves and fund*

The appropriation of reserves as described in Note 2(r)(iv) and bonus and welfare fund will be made at the end of the annual accounting period.

## 27. Changes in accounting estimates

There was no significant change in accounting estimates made by the Bank in preparing these separate interim financial statements compared to those made in the most recent separate annual financial statements.

## 28. Changes in the composition of the Bank

There was no significant change in the composition of the Bank for the six-month period ended 30 June 2021 compared with the most recent separate annual financial statements.

## 29. Approval of the separate interim financial statements

The separate interim financial statements were approved by the Board of Management of the Bank on 13 August 2021.

Hanoi, 13 August 2021
