

APPENDIX: TERMS, CONDITIONS FOR REGISTRATION AND USE AUTHENTICATION METHOD FOR INDIVIDUAL CUSTOMERS

Terms and conditions for use of Vietcombank's authentication method (herein after referred to as "these Regulations") provide for the rights and obligations of Vietcombank and Customers in the course of using authentication methods provided by Vietcombank when using Vietcombank's products and services. Customers are considered to have accepted and agreed to all the contents of this Regulation when signing on the form of registration/change of authentication method or confirmation of agreement electronically. This Terms / Conditions and “Registration to use Hard Token / Vietcombank Smart OTP authentication method”; “Electronic Banking Service Registration Form”, “The application for opening of personal customer information, transaction account and banking service registration” (paper or electronic version) after being signed between Customer and Vietcombank will be a legal binding between the parties and is an integral part of the banking service contract signed between Vietcombank and customers.

ARTICLE 1. DEFINITION OF TERMS

- Authentication method: The method used by VCB to authenticate customers when making transactions on electronic banking channels and other channels as prescribed by Vietcombank, including: Service login password (MPIN), Biometrics, SMS OTP, Vietcombank Smart OTP, Hard Token
- OTP – One time password: Password is valid for one-time use and valid for a certain period of time.
- Biometric authentication method: is the use of face ID solutions, fingerprints, veins, voice, retina...(collectively called biometrics) to authenticate customers according to Vietcombank's regulations from time to time.
- SMS OTP authentication method: is the authentication method in which the OTP code is sent via SMS to the Customer's registered phone number.
- MPIN authentication method (Service login password): is the authentication method in which the customer uses the service login password (Internet Banking / Mobile Banking) to authenticate transactions.
- Vietcombank Smart OTP authentication method: is the authentication method in which the OTP code is generated by the application installed on the Customer's mobile device (Smartphone, ipad, tablet...). Authentication method of Vietcombank Smart OTP includes 2 forms:
 - ✓ Standalone application: OTP code is generated when customer enter the transaction verification code into Vietcombank Smart OTP application.

- ✓ Intergration into VCB – Mobile B@nking, VCBPAY: The system automatically generates and fills in OTP code right on the transaction screen.
- Hard Token authentication method: is an authentication method in which the OTP code is generated by the Hard Token device provided by Vietcombank to customers.

ARTICLE 2. CONDITIONS FOR USING AUTHENTICATION METHOD

1. General conditions:

- Customers need a payment account at Vietcombank.
- Customers need to complete the registration requirements, accept all terms of use of Vietcombank's banking services which require the implementation of authentication methods and terms of use of authentication methods. Vietcombank's regulations are specified in each period.

2. Conditions for using each authentication method:

2.1. Biometric authentication method:

- Having a mobile device or tablet with the function of unlocking the device by biometric method.
- Register to use electronic biometric authentication method with Vietcombank in electronic form according to Vietcombank's regulations each period.

2.2. SMS OTP authentication method:

- Having a mobile device or tablet with the function of unlocking the device by biometric method.
- Registered to use VCB - SMSBanking services of Vietcombank.

- Registered to use VCB - SMSBanking services of Vietcombank.
- Complete downloading, installing and activating Vietcombank Smart OTP application to Customer's mobile device.

ARTICLE 3. SCOPE OF SERVICE AND TRANSACTION LIMIT

Subject to the laws and policies of Vietcombank each period, Vietcombank regulates the detail scope of each authentication method corresponding to each type of service that Vietcombank is providing to the Customer and transaction limits apply by each type of authentication method. The scope of application and transaction limit will be notified by Vietcombank to customers through one of the following channels: Official website of Vietcombank; notice at Vietcombank transaction points; VCB - iB@nking/VCB - Mobile B@nking applications; sent to email or mobile phone or postal address provided by Customer to Vietcombank.

ARTICLE 4. CUSTOMER RIGHTS AND OBLIGATIONS

1. Customer's Rights:

- Having the right to use the authentication methods provided by Vietcombank.
- Request Vietcombank to update the user registration information, reset password, lock, unlock/reactivate authentication method according to the updated registration procedure prescribed by Vietcombank. Vietcombank will execute customer's request after checking and accepting this request.
- Having the right to register changing the authentication method and transaction limit of the authentication method within the allowed limit corresponding to the service package.
- Having the right to complain to Vietcombank about errors, violations (if any) arising during the use of authentication method in accordance with law. Complaints will be made according to the regulations of each banking service that the Customer uses.
- Customers have the right to request termination of the use of authentication methods.
- Exercise other rights of the Customer in accordance with this provision and relevant provisions of law.

2. Customer's obligations:

- Customers are responsible for ensuring the registration process, the operation of using accurate and complete authentication method in accordance with the instructions of Vietcombank.
- Customers are responsible for securing the devices setting up the authentication method or the device receiving the OTP code, taking measures to prevent and block the unauthorized use of such devices within their capabilities.
- Take full responsibility for installing Vietcombank Smart OTP application on mobile devices which are verified by activation code and sent to the Customer's registered phone number.

- Customers are obliged to keep information of authentication method and / or other relevant information provided by Vietcombank. All transactions authenticated via username, password and authentication method provided to Customer by Vietcombank are understood to be transactions made by Customer's awareness.
- Only the authentication methods provided by Vietcombank on the official transaction channels, prescribed by Vietcombank from time to time, are legally valid and binding on the related parties.
- Customer agrees to let Vietcombank automatically debit any Customer's payment account to collect the fees and financial obligations incurred to pay Vietcombank when the Customer uses the authentication method
- Take full responsibility when the username, password, authentication information is revealed, stolen, taken advantage of due to the Customer, even when this Regulation expires.
- When demanding to stop using the authentication method, the Customer is responsible for notifying Vietcombank in one of the following forms as prescribed by Vietcombank from time to time, including: contacting legal transaction points of Vietcombank, request on VCB - iB@nking or VCB - Mobile B@nking, VCBPAY, call Customer Support Center - VCC of Vietcombank
- Update information at Vietcombank's transaction points in case the Customer has any change of phone number to receive OTP code.
- To perform other obligations in accordance with this Regulation, agreement between the parties and the provisions of law.

ARTICLE 5. RIGHTS AND OBLIGATIONS OF VIETCOMBANK

1. Rights of Vietcombank:

- Not responsible for any damages caused by the error of the Customer revealing the username, password, authentication information for any reason.
- Not responsible for Customer using software, documents or following instructions not provided by Vietcombank.
- Send information about Vietcombank's authentication method to customers in one of the following ways: Notice at Vietcombank's transaction points, via VCB - iB@nking / VCB - Mobile B@nking or sent to email or mobile phone or postal address provided by Customer to Vietcombank.
- Vietcombank reserves the right to change the contents of this Regulation by sending notice to the Customer. Customer is deemed to have received notification if:

- ✓ These notices have been posted on Vietcombank's official website at: <http://portal.vietcombank.com.vn>; or
 - ✓ Be informed at Vietcombank transaction offices; or
 - ✓ Be informed via the VCB - iB@nking / VCB - Mobile B@nking app; or
 - ✓ Sent to email or mobile phone or postal address provided by Customer to Vietcombank
- Vietcombank has the right to actively stop providing authentication methods to customers when:
 - ✓ For reasons beyond Vietcombank's control, prevention and anticipation, Vietcombank is no longer able to provide an authentication method or Customers are no longer subject to the authentication method specified in this Regulation and other relevant regulations of Vietcombank, or Customer's authorized representative not approved by Vietcombank.
 - ✓ Due to changes in government policies, Vietcombank is unable to continue providing these services to customers.
 - ✓ Other cases as stipulated by Vietcombank in each period.
 - ✓ In case Vietcombank proactively stops providing authentication methods to customers, Vietcombank will notify customers in one of the following ways: Notices on website, notices on Vietcombank's application, written notices version, email and other forms regarding the suspension of Vietcombank from providing authentication methods.
 - To exercise the rights provided for in other provisions of this Regulation, Vietcombank's internal regulations and relevant provisions of law.

2. Obligations of Vietcombank:

- Comply with applicable laws and regulations on security and confidentiality in e-banking transactions.
- Provide authentication method within the scope of customers registering to use and negotiate with Vietcombank.
- Keep customers' information confidential as prescribed by law. Vietcombank only provides information related to the Customer, information about the Customer's transactions to a third party with the permission of the Customer or at the request of the authorised State agencies, under the law; or provide Vietcombank employees, third parties and / or individuals / organizations acting on behalf of Vietcombank to provide Services to Customers when such employees, third parties need to know the information to process data, execute Vietcombank's electronic banking order or resolve disputes (if any) between Customer and Vietcombank

regarding the implementation of this Regulation provided that a third party and / or individual/organization has a commitment with Vietcombank to ensure the responsibility to keep the provided information confidential.

- Ensuring the rights of customers when authenticating transactions by the authentication methods provided to customers by Vietcombank.
- Lock Customer's right to use authentication methods when receiving Customer's notice about the lost authentication device and / or disclosure of Customer's authentication method login information.
- Resolving Customer's complaints regarding the use of Vietcombank's authentication method.
- Fulfill the obligations of Vietcombank prescribed in other provisions of this Regulation.

ARTICLE 6. HANDLING OF PROBLEMS IN THE PROCESS OF USING AUTHENTICATION METHOD

- Customers need to immediately call Customer Support Center - VCC of Vietcombank; or go to Vietcombank's transaction offices for instructions on handling if:
 - ✓ Customers cannot access the Vietcombank Smart OTP application or suspect that their username, password, authentication information is revealed or forgotten their password or username; or
 - ✓ Customers discover any issues or technical problems related to the operational safety of Vietcombank Smart OTP application and Hard Token devices.
- In case the Customer enters the wrong password of the Authentication Method (applicable to Vietcombank Smart OTP, Advanced Hard Token) more than the maximum number of times prescribed by Vietcombank in each period, the Customer will be locked the access rights. Depending on Vietcombank's policy from time to time, Customers can request to reactivate / unlock applications / devices at Vietcombank's transaction points or on electronic banks (VCB - iB@nking, VCB - Mobile B@nking).

ARTICLE 7. CASE OF LIABILITY EXCEPTION

Vietcombank is not liable for any loss or damage of Customer arising from / due to:

- Customer discloses / discloses authentication information and / or other information related to the transaction to others; or
- Interruption, delay, unwillingness or any incident occurred during the process of checking information and obtaining authentication code on the authentication methods registered by the Customer due to causes outside the reasonable control of Vietcombank including: disruption of Vietcombank's system (due to need to be upgraded, repaired to better serve customers), transmission line problems of service providers Internet, transmission line incidents of telecommunication networks, electrical incidents, force majeure events such as epidemics, disasters, wars, terrorism, natural disasters, floods, fires, lightning strikes and / or other events other force majeure events occur; or
- Incidents related to customer devices (including operating system problems); or
- Customer's equipment is used by other people with or without the customer's consent; or,
- Vietcombank's compliance with the decisions of authorised state agencies.

ARTICLE 8. VALIDITY TERM AND TERMINATION CASES

- This regulation and the amendments / supplements (if any) are binding as a contract between Customer and VCB from the time Vietcombank publishes the content on the website (or other suitable method) approved by Customer through:
 - ✓ Customers register to use any Authentication Method; or.
 - ✓ Customers follow the instructions of commitment to comply on the Registration screen for the respective authentication method; or
 - ✓ Customer has previously registered and continued to use any Authentication Method after Vietcombank posted this Regulation on Vietcombank's official website and / or sent to Customer's registered email address and / or listing at Vietcombank transaction points.
- This provision expires when the Customer stops using the authentication method and the parties have fulfilled all rights and obligations under this Regulation and other relevant provisions of the Law and Vietcombank.

ARTICLE 9. DISPUTE SETTLEMENT IN THE PROCESS OF USING AUTHENTICATION METHOD

Any dispute arising out of or relating to this Regulation shall be settled on the basis of negotiation between the parties. In case of non-negotiation, such dispute will be resolved

at the authorized People's Court where Vietcombank's office is located at the time of filing the lawsuit.

ARTICLE 10. CHANGING THE CONTENT OF TERMS AND CONDITIONS

- Vietcombank reserves the right to change the contents of this Regulation by giving notice to the Customer. Customer is deemed to have received notification if:
 - ✓ These notices have been posted on Vietcombank's official website at: <http://portal.vietcombank.com.vn>; or
